

TACTIQ - BIZZELL  
JV PARTNERS

SBA 8 (a) Certified

HUBZone Certified

## OPERATIONS, WORKFORCE, AND PROGRAM EXECUTION FOR FEDERAL AGENCIES

Federal programs operate under staffing shortages, increased oversight, and compressed timelines. TactIQ + Bizzell delivers execution—deploying personnel, managing operations, and sustaining performance across mission-critical programs.

The JV combines TactIQ's workforce and logistics execution with Bizzell's federal prime contract experience across civilian, defense, and health agencies, including HHS, DoD, DOL, NIH, CDC, CMS, and international programs. Through the SBA Mentor-Protégé structure, agencies access established past performance, experienced personnel, and immediate execution capacity under a streamlined 8(a) contracting vehicle.

### CORE CAPABILITIES

#### Workforce Deployment & Program Execution

Deploy personnel aligned to contract requirements to sustain operations and meet deliverables.

#### Logistics & Facilities Operations

Maintains inventory control, material flow, and site coordination to ensure operational continuity and throughput.

#### Program & Event Delivery

Plan and execute federal programs, conferences, and stakeholder engagements at scale.

#### Administrative & Operational Support

Maintain reporting, coordination, compliance, and program structure across federal contracts.

#### Technical Assistance & Training

Deliver training, outreach, and stakeholder support aligned to federal program objectives.

### DIFFERENTIATORS

- 8(a) sole-source and set-aside access
- Mentor-Protégé structure leveraging proven prime past performance
- HUBZone workforce for scalable, cost-effective execution
- Experience supporting large-scale federal programs and operations
- Rapid deployment aligned to active contract requirements

### SELECT PAST PERFORMANCE

#### NASA Jet Propulsion Laboratory (JPL) – Logistics & Warehouse Operations (Subcontractor – TactIQ)

Supports mission-critical warehouse and materials management operations within a high-security federal environment, maintaining continuity, inventory control, and operational efficiency.

#### Department of Defense – Mentor-Protégé Program (MPP) Summit (Subcontractor – TactIQ)

Executed matchmaking operations and developed the AI-driven scheduling and coordination platform supporting mentor-protégé engagement across hundreds of participants. Delivered technology build, partner alignment, and live program execution as a subcontractor supporting summit operations.

#### Defense Health Agency (DHA) – Medical Device Integration (Prime – Bizzell)

Supported enterprise-level integration and program execution across military health systems, coordinating stakeholders, systems, and compliance requirements.

#### NASA Jet Propulsion Laboratory (JPL) – Facilities & Operations Support (Prime – Bizzell)

Supports large-scale facilities and operational services within a high-security federal environment, including infrastructure support, site coordination, and continuity of mission-critical operations.

#### Department of Labor – Job Corps Center Operations (Prime – Bizzell)

Manages operations across four federally funded Job Corps centers, delivering workforce development, staffing, training, and full center operations for large-scale participant populations.
